

**Office of Legislative Counsel**

**Journal**

**Wednesday - 21 January 1959**

STAT

2. Mr. Charles Parker, Bureau of the Budget, called to advise that the general Executive Order pertaining to the Government Employees Training Act has been signed (EO 10800). He added that the Justice Department was making minor changes in the introduction to our Order, but he was confident that these would not change the substance of the Order in any respect. In addition, certain typographical errors were made in the general Order and they are being corrected in our directive.

3. Sherman Kent telephoned just prior to his departure inquiring of the appropriateness of a letter from him to Senator Humphrey saying that he regretted missing the opportunity of appearing before Humphrey's Disarmament Subcommittee but that Abbot Smith who was appearing was an extremely capable individual and very knowledgeable. In view of Kent's personal relationship with the Senator, I agreed that this seemed appropriate.

4. Learning of Congressman Victor L. Anfuso's attempt to telephone the Director, I checked with [redacted] and was advised that Anfuso is the fifth ranking Democrat on the Space Committee and that he has shown interest in two Subcommittees. One is the Standing Subcommittee on Air and Space Law and International Cooperation. The other is an ad hoc committee to advise the UN delegation concerned with peaceful uses of outer space.

STAT

Subsequently, the Director met with Mr. Anfuso at approximately six o'clock and [redacted] (OSI) was present.
